

Togro

FOR PUBS, CAFES, FARM SHOPS & B&BS

How Togro works **for your venue.**

Togro is a real-time countryside app launching this summer. Walkers report hazards and farmers log livestock, so the countryside is safer to walk, and venues like yours get found by the people walking past.

walkers / your venue / the countryside

What you get

Found by the right people, at the right moment, with proof they actually arrived.

On the walkers' map

You appear to walkers planning and following routes nearby.

Verified footfall

Only real walkers who arrived, confirmed by location and time.

Rewards

Offer a free coffee or a deal walkers redeem in person.

How it works

1

You list your venue and pick a reward

Tell us the basics and choose a reward, or let our engine design one. Accept it in one tap. Free to be listed.

2

Walkers find you on their route

Your venue and reward show up on the map for walkers heading your way.

3

They redeem in person

By geofence, a QR code, or an 8-character code if signal is poor. You confirm it and the visit is verified.

4

You see what is working

Verified arrivals and redemptions land on your dashboard, so you can see the return and tune your reward.

Simple pricing

Free to be listed. A flat fee per verified arrival, never a cut of the bill.

LISTING

Free

On the map, one reward, 50p–£2 per verified visit.

PRO

£29_{/mo}

Live footfall dashboard + route-origin analytics.

PRO+

£79_{/mo}

AI rewards, predictive alerts, brand campaigns.

Why we ask for your payment details

So we can run reward redemptions cleanly. When you go live, we take a card on file through our secure payment provider (Stripe). Here is exactly what it is for:

- ✓ **Per verified visit:** a small flat fee (50p to £2) only when a real walker redeems at your venue. Never a percentage of the bill.
- ✓ **Your plan, if you choose one:** Pro (£29) or Pro+ (£79) a month for analytics. Optional.
- ✓ **We never see your card.** Details go straight to Stripe. You can manage or cancel any time.

We only ask for this at the final go-live step, not when you first register. Listing is free; you only ever pay when walkers actually turn up.

In the post: your welcome kit

- ✓ “Togro Approved Venue” window sticker
- ✓ “Credits Accepted Here” decal
- ✓ QR poster + counter sticker
- ✓ Table talker + staff guide
